T H E P R E F A C E.

THE *Itinerarium Angliæ*, or Book of the Principal Roads of *England* and *Wales*, by an actual Admeasurement, and describ'd in 100 Copper whole Sheet-Plates, has been done with so much Care and Exactness, and esteem'd a Work so useful, that it wanted only to be reduc'd to a portable Volume, to render it of general Advantage to an *English* Traveller.

As the original Plates are in large Sheets, the general Use of them has been hitherto lost, and the Book rather an Entertainment for a Traveller within Doors, than a Guide to him upon the Road: That a Work of so much Use might be therefore a constant Companion to those that want it in the most useful Way, viz. as a GUIDE to the TRAVELLER; this Method of rendring it such has been attempted, and on Experience 'tis not doubted will be found to answer all the Ends of the original Design, and the utmost Expectations of those that shall make Use of it.

The Method of the original Undertaker in the Whole Sheet-Maps, (which is esteem'd, as the first, so the best of the kind) is strictly observ'd in the following smaller ones, and which 'tis hop'd, on Comparison, will appear to be so in the most minute Circumstances, none of which are omitted.

Two Books have been already collected and form'd from the Folio Original, the one intitled, *The Traveller's Guide*, the other *Mr. Ogilby's Pocket Book of the Roads*. The former lays down the Roads by Way of Itinerary, as they are in the Maps themselves, describing the Towns, Villages, &c. to be
past

The PREFACE.

past through and by, with the Rivers, Hills, measured Distances, and all other Remarkables upon the Road: The other mentions only the Towns and Villages on the Road, with their Distances from each other, and from the Beginning of the Journey, and the computed and measured Distances: But this, besides its being the original Work it self in Miniature, containing the whole of both those Books, and keeping the Roads themselves, and every Mile of them in View, with all the Remarkables adjoining, 'tis presum'd will be thought much more useful to the Ends those Books were intended, and deserve the Title of *A POCKET-GUIDE to the ENGLISH TRAVELLER*.

The Title of each *Initial Plate* expresses how far the Road it leads to Extends in a continued *Series*, giving the *Dimensurated Distance* from the *Initial* to the *Terminating Town* in Miles and Furlongs, and the Particular Distances of the more Eminent Through-fares separately: But if the *Road* Extends to more than one *Plate*, then the *Initial Plate* gives the Particular Distances of the First *Plate* only, and the general Distance thence to the *Terminating Town* of the next *Plate*, and so on: The *Continuation Plates* giving the Particular Distances of that part of the *Road* included in them.

Each Road is Projected upon Imaginary *Scrolls*, beginning at the bottom of the Outmost *Scroll* on the Left Hand; whence it Ascends to the Top of the said *Scroll*, and then begins at the bottom of the next *Scroll* towards the Right Hand Ascending again: And thus from the bottom upwards till it Terminates at the Top of the Outmost *Scroll* on the Right Hand; as is Evident by the Succession of Figures Numbering the Miles.

THE

The T A B L E.

P LATE 1, 2, 3. *From LONDON to ABERISTWITH, passing through* A&on, Uxbridge, Beaconsfield, High-Wickham, Tettsworth, Wheatly-Bridge, [OXFORD,] Islip, Enston, Morron-Inmarsh, Burton, Broadway, Pershore, WORCESTER, Bromyard, Leominster, Prestain, Riadergowy, Llanbadern-vawre..

A hand-drawn map of the Great River Cut in Cambridge. The map shows a route starting from Denbar at the top, passing through Rulben Hall, the Holy Trinity Church, and the River running to the River Broadrichs end. The route continues through the Great River Cut, passing the River running to the River Broadrichs end, and finally reaching Littleport at the bottom. A compass rose is located on the left side of the map. The map is titled 'CAMBRIDGE SHIRE' on the right side.
